# Frequently Asked Questions (FAQ)

**What is ZenMasta ERP?** ZenMasta ERP is a cloud-based Enterprise Resource Planning (ERP) solution that helps businesses manage their projects, accounts, human resources, and customer relationships. With a user-friendly web-based interface, ZenMasta ERP can be accessed from anywhere, making it easy for businesses to manage their operations remotely. The solution offers a comprehensive set of features, including project management, accounting, HRM, and CRM modules, with additional features such as multi-currency support, mobile-friendly interface, customizable dashboards, and reporting and analytics tools. ZenMasta ERP is a robust and comprehensive solution suitable for businesses of all sizes seeking an all-in-one ERP solution.

**Who is the ZenMasta ERP built for?** ZenMasta ERP is an all-in-one ERP software designed to meet the needs of businesses of all sizes and across various industries. The solution's project management, accounting, HRM, and CRM modules provide businesses with a centralized platform to manage their projects, accounts, human resources, and customer relationships effectively. Additionally, ZenMasta ERP offers multi-currency support, a mobile-friendly interface, and customizable dashboards to provide flexibility and quick access to information. This makes ZenMasta ERP an ideal solution for businesses seeking to streamline their operations, reduce costs, and increase efficiency. It is also an excellent option for SME's operating within Papua New Guinea and other emerging economies.

**What the step to purchasing your plan.** To subscribe to a plan on ZenMasta ERP, users must first register for an account. This is a quick and easy process that requires basic information such as name and email address. Once registered, users can choose a plan that suits their business needs and budget. ZenMasta ERP offers different plans with varying features and pricing, so users can select the one that best fits their requirements. Users can upgrade to a higher tier plan within their respective user dashboards at any time. This means that businesses can start with a lower-tier plan and upgrade to a higher one as their needs grow and evolve.
